Hello,

I am thrilled to be applying for the Graphic Designer position and believe that I will be able to offer the driven, creative, enthusiastic, self-motivated, and detail-oriented team member that you are looking for. I have been studying graphic design since high school and my internship has provided some insight as to using my skills in a business environment. With graphic design, another responsibility is staying on top of current trends and software (Photoshop, Illustrator, InDesign, and Wix). I have several social media accounts that enable me to follow trends ranging from Pantone's color of the year to following artists on Behance. In my free time, I take on freelance/personal projects in order to remain proficient and current with any software updates. I have basic knowledge with AfterEffects, WordPress, MailChimp, and Dreamweaver. I am dedicated, excited, and adaptable and see this as a wonderful opportunity to grow with a company.

Thank you for your time and consideration. I'm looking forward to learning from you. Feel free to look at my portfolio: gabrielladesigns.com

Sincerely,

Gabriella Maya
